

Everything your practice needs to thrive

Schedule and Seat Quickly

Online Scheduling

Provide 24/7 online scheduling convenience to new and existing patients, even when marketing.

Mobile and iPad Forms

Go paperless with custom forms completed on phones before visits or on tablets during check-in.

Auto and Two-Way Text

Prevent cancellations with auto text/email reminders and quickly answer questions via two-way text.

Voice and Call Pop

Know who's calling and seize opportunities. Track calls with recordings + analytics. Free phones!

Present and Treat Efficiently

AI X-Ray + Charting

AI helps detect clinical issues on x-rays and creates treatment notes within seconds. Access images and charts from any device.

AI Office Assistant

Generate complete, professional-grade clinical notes instantly. AI pulls real-time patient, provider, and treatment details and delivers accurate, standardized notes.

Eligibility and Benefits Check

Know what's covered before acceptance and treatment with real-time eligibility/benefits check.

ePrescribing

Send prescriptions to pharmacies within seconds and comply with your state's eRx requirements.

Collect More and Give Options

Credit Card Processing

Accept credit card and ACH payments directly in ThriveCloud, and with (free) modern devices.

eBilling and Pay-By-Text

Boost cash flow (and replace paper statements) with eBilling and pay-by-text for patients.

Financing and Memberships

Provide third-party financing options at the lowest rates as well as in-house membership plans.

eClaims with Attachments

Send out eclaims with attachments in one place with a quality check to stop rejection.

Fill Gaps and Grow Faster

AI Practice Analytics

Get instant reports, dashboards, and actionable tips to boost production and seize missed opportunities.

AI-Text + Email Marketing

Build targeted text and email campaigns in minutes with AI-powered content generation and smart scheduling.

Online Reviews

Let your biggest fans leave glowing online reviews and attract new patients to your practice.

Multi-Location Groups

ThriveCloud is built for practices with multiple locations, and unifies your team and workflows.
